

Plan 1

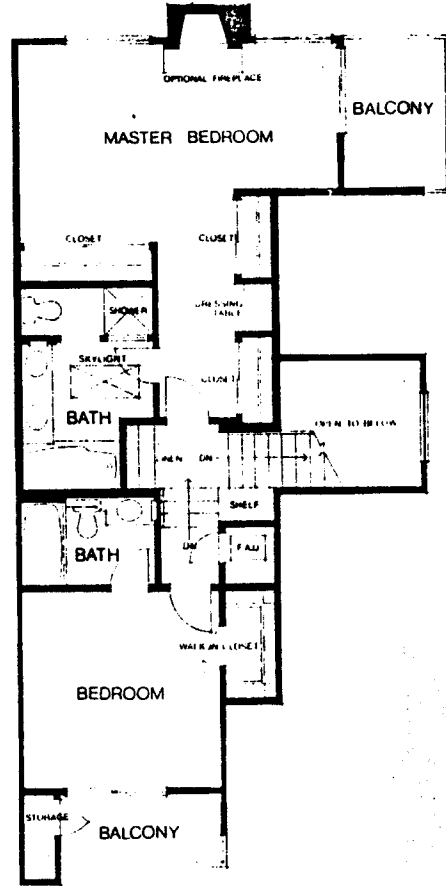

A step-down entry with a gracefully arched window overlooks the living room and dining area of this two-bedroom home. A volume ceiling and bay window create a dramatic impression in the dining area, which opens to the living room with a fireplace and wet bar for casual entertaining. A sliding glass door

opens into a private patio.

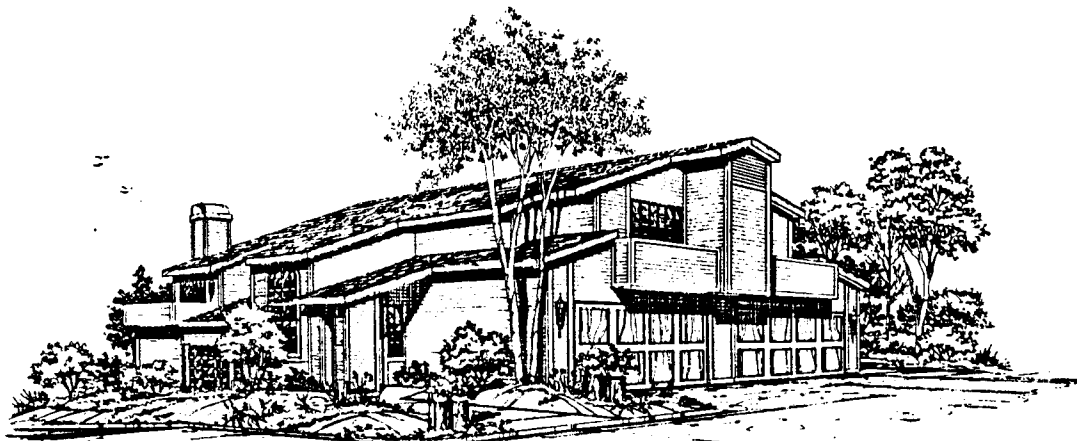

For added privacy, the master bedroom suite is on a separate level, featuring a sitting room, dressing table, balcony and private bath with skylight. The second bedroom is highlighted by a walk-in closet, private bath and balcony.
